

THE NUMBERS FOR THE FOOTBALL SQUARES WILL BE SELECTED WHEN THE GRID IS FILLED.

How it works:

Once all the squares have been selected (purchased), our computer program will randomly pick numbers from 0-9 for each team in the Super Bowl, and assign that number to a particular row or column. These numbers represent the last number in the score of each team. In other words, if the score is AFC 17 - NFC 14, then the winning square is the one with an AFC number of 7, and an NFC number of 4.

Since this is a Fundraiser, 50% of the proceeds will go to the Long Lake Lights Festival, and the other 50% will be distributed among the Players with the Winning Squares!

Winnings Breakdown for Squares
